

Microsoft Best Practice Award

Foundation IT have maintained our Gold Partner Status over the years continuing to deliver the highest quality solutions based upon Microsoft technologies.

Foundation IT have put in an immense amount of effort to ensure that our Microsoft solutions are delivered in a manner that protects the clients interests and delivers a solution that is exactly matched to the business requirements. We work within a customised “Design, Deploy and Operate” methodology that captures Microsoft best practice advice and our own experience ensuring that we have constant improvement. By encapsulating this approach within a customised Prince 2 based approach we can guarantee excellent results first time – every time.

Microsoft recognised this commitment to service by awarding the Best Practice Partner award – a discretionary award that can only be obtained by nomination from within Microsoft. This is a highly prestigious award that is reserved for organisations that truly demonstrate commitment to delivering fully fledged solutions.
